Subject: Correction to 3/28/06 letter re Peterson Fields

Near the end of March, Sunnyvale Parks and Recreation Director Dave Lewis sent a letter to inform you that the Santa Clara Unified School District is considering declaring "approximately 8 acres of the old Patrick Henry Junior High School site, now considered part of Peterson Middle School, as surplus land." The letter continued to state if your organization was interested in the possibility of an agreement with the school district to lease or purchase that land, to contact the school district directly.

I am sending this email message to point out that staff made an error when referring to the property the school district is considering declaring surplus. It was never part of the Patrick Henry Junior High School site and that part of the letter was incorrect. However, the property is considered part of Peterson Middle School site, that part of the letter is correct.

I believe most of you understood the location of the property was Peterson Middle School; however I would like to be sure the error is corrected. Thank you.
Sincerely,

Cathy E. Merrill
